

PROGRAM MAINTENANCE – ADDING A NEW PROGRAM AND PROGRAM STRAND

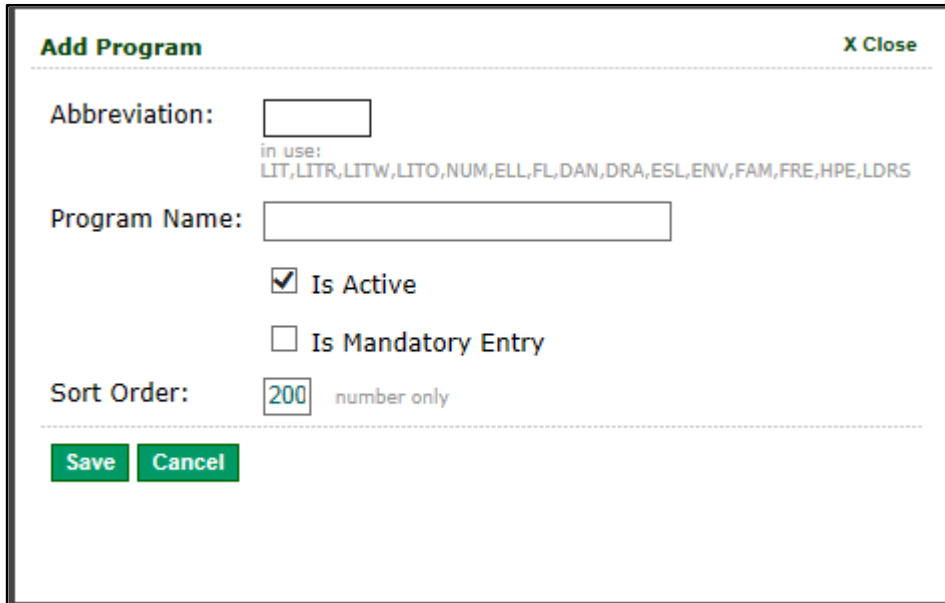

There are two parts to adding a new Program. You must first add the Program and then, because every Program must have at least one Program Strand, you must then add a Program Strand to the new Program.

If it is not already active, click on the “Admin” tab, and then click on the “Programs” tab. You will be presented with a list of Programs offered by the TDSB elementary summer schools. The screen should look something like this:

The screenshot shows the TDSB Elementary Summer School Assessment Admin interface. The top navigation bar includes 'Assessments', 'Reports', and 'Admin' (highlighted with a red box). Below this is the 'Administration' section with 'Programs' (highlighted with a red box), 'Admin Reports', and 'School Settings' tabs. A radio button selection shows 'ConEd' is selected. The main content area is titled 'Programs of ConEd' and features a table of programs. A green 'Add Program' button (highlighted with a red box) is located in the top right of the table area.

Edit	Program Abbreviation	Program Name	Strand	Active	Mandatory Entry Assessment	Sort Order
	LIT	Literacy	1	✓	✓	10
	LITR	Literacy - Reading	1	✓	✓	20
	LITW	Literacy - Writing	1	✓	✓	30
	LITO	Literacy - Oral Communication	1	✓	✓	40
	NUM	Numeracy	1	✓	✓	50
	ELL	English Language Learner	1	✓	✓	53
	FL	Financial Literacy	1	✓	✓	55
	DAN	Dance	1	✓		60
	DRA	Drama	1	✓		70
	ESL	ESL	1	✓		80

To add a new program, click on the “**Add Program**” button. The Add Program pop-up window will appear.

Add Program X Close

Abbreviation:
in use:
LIT, LITR, LITW, LITO, NUM, ELL, FL, DAN, DRA, ESL, ENV, FAM, FRE, HPE, LDRS

Program Name:

Is Active
 Is Mandatory Entry

Sort Order: number only

Enter a valid Program “**Abbreviation**”. The abbreviation can be from 1 – 5 characters in length and it must be unique (i.e. no other Program can have the same abbreviation). To help avoid assigning a non-unique abbreviation, a list of the abbreviations already in use appears below this field. It is important to remember that it is the Program Abbreviations that are used in the Trillium Class Descriptions in order to match a student’s class to the summer school programs that they will be assessed in for that class.

Enter the “**Program Name**”.

By default, the “**Is Active**” checkbox will be checked making the new program active and available for immediate use.

If the program mandates that an entry level assessment must occur, click on the “**Is Mandatory Entry**” checkbox to turn it on. If an entry level assessment is optional for this program, leave the checkbox blank. Usually only programs related to Literacy and/or Numeracy have mandatory entry level assessments. All Strands for this Program will inherit this setting.

By default, the new program is assigned a “**Sort Order**” +10 greater than the last program added. The sort order determines the order in which the programs will be listed on the Progress Report --- the lowest number printing first. If the default sort order does not place the program in the correct order, simply change the number to order it correctly.

Below is a sample screen showing the addition of a new Environment program. It has ENV as an abbreviation, is currently active, and entry level assessments are optional for this program. The default sort order is accepted.

Add Program X Close

Abbreviation:
in use:
LITR,LITW,LITO,NUM,DAN,DRA,ESL,ENV,FRE,HPE,MAMT,MUS,SCI,SSH

Program Name:

Is Active

Is Mandatory Entry

Sort Order: number only

Once you are satisfied that the data entered is correct, click on the “**Save**” button. You will be returned to the list of “**Programs of Con Ed**” list where the new program should now appear in the order determined. Clicking on the “**Cancel**” button will also return you to the list of “**Programs of Con Ed**” but will result in the cancellation of the addition of the new program

Adding a Program Strand

You now need to add a Program Strand to the new Program. To do this, simply click on the  icon in the “Strand” column of the new Program. The screen will expand to display the Strands section as shown below.

	ESL	ESL	1 	✓		50
	ENV	Environment	0 	✓		60

Strands of Program: Environment Add Strand
(no strand found)

To add a new Program Strand, click on the “Add Strand” button. The Add Strand pop-up window will appear.

Add Strand X Close

School Type: ConEd

Program Name: Environment

Strand Name:

Is Active

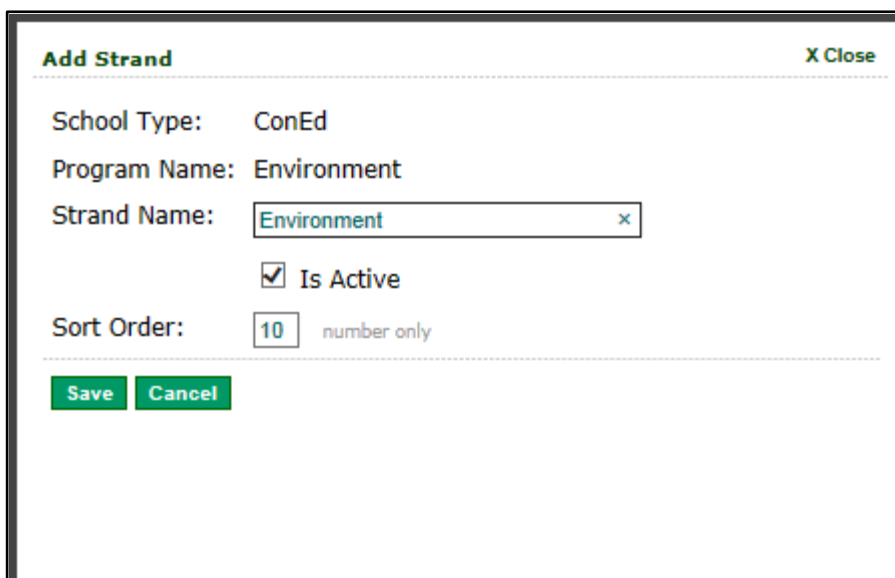

Sort Order: number only

Enter the “**Strand Name**”. In most cases the “**Strand Name**” will be the same as the Program Name. It is important to remember that it is actually the Strand Name that will print on the Progress Reports --- not the Program Name.

By default, the “**Is Active**” checkbox will be checked making the new strand active and available for immediate use.

By default, the new strand is assigned a “**Sort Order**” +10 greater than the last strand added. The sort order determines the order in which the active strands will be listed on the Progress Report within the related Program --- the lowest number printing first. If the default sort order does not place the strand in the correct order, simply change the number to order it correctly.

Below is a sample screen showing the addition of a new Environment program strand. It has been assigned the same name, “Environment”, as the Program.

Add Strand X Close

School Type: ConEd

Program Name: Environment

Strand Name:

Is Active

Sort Order: number only

Once you are satisfied that the data entered is correct, click on the “**Save**” button. You will be returned to the Programs list where the new Program Strand should now appear. Clicking on the “**Cancel**” button will also return you to the Programs list but will result in the cancellation of the addition of the new program strand.
